Whether you are hunting turkeys with a shotgun, hogs with a rifle, or plinking targets at the range, TRUGLO® DOT•OPTICS offer the ideal combination of brightness and speed for close and medium-range shooting.
TRITON™ Series dot optics are designed for every situation — any season, any target. TRI•COLOR reticle illumination gives you options for the ultimate contrast against any background while the ON / OFF pressure-sensitive switch will make your movements virtually undetectable. TRITON dot optics offer a bright and versatile targeting system, providing the perfect combination of comfort, clarity, and control.

PRODUCT FEATURES

- Three choices of reticle color for contrast against any target / background (red, green or blue)
- 30mm objective lens
- Remote momentary ON / OFF pressure switch included
- Flip-up lens caps / lanyard system
- Integrated Weaver-style mounting system
- Model TG8230GB includes a detachable, extended sunshade that eliminates glare from the front lens
- Model TG8230GB includes a precise 3-MOA Center Dot reticle – perfect for turkey hunting
- Includes all the award-winning features of our TRADITIONAL Red•Dot Series (see page 12)

This compact TRITON™ reflex sight is designed to easily adapt to a wide variety of shooting and lighting conditions. Along with the innovative TRI•COLOR technology, this sight also includes the ability to choose between four reticle patterns, each with individual brightness settings. In addition to being compatible with any Picatinny or Weaver rail, TRITON 28mm sits at the ideal height for most modern sporting rifles.

**PRODUCT FEATURES**

- Quickly toggle between 4 reticles with the intuitive rotary selector switch
- Lightweight / compact design
- Unlimited eye relief
- Wide field of view
- Anti-reflective coating on target side
- Parallax free from 30 yards
- Included detachable sunshade
- Integrated Weaver-style mounting system
- Ideal for shotguns, handguns, rifles, muzzleloaders, airguns and crossbows

DUAL•COLOR
MULTI-RETICLE DUAL•COLOR OPEN DOT SIGHT

All the features of our original DUAL•COLOR dot sights for those who don’t want a tube. A wide sight window with a thin frame makes the optic housing nearly disappear from view while your dot remains on target. The DUAL•COLOR Open Dot Sight is available with a standard dot reticle or a multi-reticle selector.

PRODUCT FEATURES
- Two choices of reticle color for contrast against any target / background (red or green)
- Lightweight / compact design
- Unlimited eye relief
- Wide field of view
- 34mm x 24mm window for ultra-fast target acquisition
- Anti-reflective coating on target side
- Parallax free from 30 yards

DOT-OPTICS
Designed to fit any railed shotgun, GOBBLE•STOPPER™ is your ideal hunting companion during turkey season. The DUAL•COLOR Center Dot reticle allows you to choose between red or green for ideal target contrast and the included sunshade prevents the glare of low-angle morning light and reflection of the objective lens. Spare battery storage inside the brightness adjustment cap ensures that you will be ready when that big tom steps out.

PRODUCT FEATURES

- Specially designed reticle for turkey hunting
- Two choices of reticle color for contrast against any target / background (red or green)
- Detachable, extended sunshade eliminates glare from the front lens
- Spare battery storage compartment
- Flip-up lens caps / lanyard system
- Lightweight / easy to mount
- Integrated Weaver-style mounting system
- Includes 3V-CR2032 batteries (main and spare)
- Includes all the award-winning features of our TRADITIONAL Red•Dot Series (see page 12)

SCOPES

Bright telescopic sights for rifles, muzzleloaders, and shotguns.
TRU•BRITE™ 30 HUNTER
30MM COMPACT SCOPE

TRU•BRITE™ 30 HUNTER offers the perfect combination of clarity, precision, and speed for shotguns and rifles. Featuring a 30mm tube and variable 1-4 x 24mm magnification, the HUNTER model boasts an extremely wide field of view — ideal for turkey, deer, hog, and varmint hunting or other medium-range precision shooting. With true 1x magnification, hunters can now utilize an extremely fast sight picture and even take the shot with both eyes open.

1-4 x 24mm - Black
TG8514BC

PRODUCT FEATURES
- 1-4x magnification for fast target acquisition
- 30mm tube for increased brightness and click adjustments
- 3.75" eye relief
- Fully-coated lenses provide maximum brightness, clarity and contrast
- Durable leaf-spring click adjustments for windage and elevation
- Waterproof / fog-proof / nitrogen gas-filled
- Extremely wide field of view
- 1/2-MOA Windage / Elevation adjustments
- Weaver-style rings included
- Bright 24mm objective lens

TRU•BRITE™ Xtreme Series scopes are built with high-quality optics that offer shooters a bright, clear, high contrast field of view in any situation. The DUAL•COLOR illuminated reticle helps ensure exact shot placement in low-light conditions. The large diameter fingertip windage and elevation knobs allow for easy adjustments when sighting in. With all these features in hand, you can be extremely confident when the time comes to take the shot.

PRODUCT FEATURES

- Ultra-high contrast, high resolution mechanical and optical design
- DUAL•COLOR illuminated reticle allows choice of red or green for faster target acquisition in low-light conditions
- Reticle can be used in black without illumination
- BDC (Bullet-Drop Compensating) can be easily calibrated to most centerfire cartridges and accommodate targets up to 600 yards away
- Rubber-coated, speed-focus eye piece
- Specially formulated multi-coating provide maximum brightness, clarity and contrast even in the poorest of light conditions
- Special internal anti-reflective coating on metal parts
- Zoom index at 9 o’clock for more ergonomic use
- Low-profile, large diameter fingertip adjustments for W/E under screw cap

Self-Adhesive Repair Dots
Cover your hits and shoot again! Included repair dots extend target life.

ACCU•GRID Precision Sighting System
Accurate 1/4” measurements help you make precise sight adjustments.

SCAN TO LEARN MORE.
TRU•BRITE™
10 x 42MM OPEN BRIDGE BINOCULARS

PRODUCT FEATURES
- Compact roof / BAK-4 prism design with phase coated prisms
- Single, ergonomic adjustment wheel for both focus and diopter settings
- Lockable diopter
- Long eye relief for use with eyewear
- Twist-up eyecups with click stops
- High transmission silver coating on prisms
- Textured surface provides a non-slip grip in all weather conditions
- Non-reflective matte finish
- Includes protective case

Neoprene Strap Included
Comfortable padded neck strap supports your TRU•BRITE™ binoculars for easy access.

Single Wheel Adjustment
Click adjustment wheel back to set diopter adjustment, then lock-in your diopter setting and click the wheel forward to adjust focus.

MODEL DESCRIPTION
- Magnification: 10x
- Objective Diameter: 42mm
- FOV (Angular): 6.5 degrees
- FOV (FT @ 1000 YDS): 345
- Close Focus: 8.2 feet
- Exit Pupil Diameter: 4.20mm
- Interpupillary Distance: 58-73mm
- Eye Relief: 15mm
- Dioptic Compensation: -4 / +4
- Dioptic Adjustment: Lockable diopter / center adjustment wheel
- Prism Type / Composition: Roof / BAK-4 Glass
- Coating: Fully multi-coated / phase coated prisms
- Protective Case: Yes
- Neoprene Shoulder Strap: Yes
- Unit Dimensions (HxWxD): 146x128x51mm
- Weight (Ounces): 23.77

HUNTER'S LITE™
- Multi-functional task light
- Hands-free operation
- Dual-position ON / OFF switch
- Flexible neck retains desired position
- Includes removable clip for convenient attachment to hats, belts, or jackets
- Attaches directly to clothing or other sporting equipment
- Bright blue LED

GLO•BRITE™ PAINT KITS
- Increase visibility of firearm sights, adjustment knobs, and other details with high-visibility paints
- Adheres to metal, plastic, and many other materials with proper application

GHOST GLOW PAINT KIT
- Model: TG985B
- Description: 5 high-visibility gun sight coatings (green, orange and yellow) / 3 light-activated luminescent gun sight coatings (yellow, orange and green)

BRITE SIGHT PAINT KIT
- Model: TG985A
- Description: 5 high-visibility gun sight coatings (red, white, green, orange and yellow)
REPLACEMENT FIBERS

- Replacement fiber-optic material for firearm and archery sights
- Efficient light transmission and vibrant color
- Available in a wide variety of colors and sizes

**MODEL** | **LENGTH** | **DIAMETER** | **COLOR / QUANTITY**
--- | --- | --- | ---
TG08A | 9" | 0.029" (0.75mm) | Red (1), Green (2), Yellow (2)

TG05D | | 0.019" (0.50mm) |  
TG05E | | 0.078" (2mm) |  
TG05F | | 0.100" (2.5mm) | Ruby Red (5), Green (2)
TG05CD | | 0.060" (1.5mm) | DUAL-COLOR Red center / Green outside (5)
TG05ED | | 0.078" (2mm) |  
TG05FD | | 0.100" (2.5mm) |  

Please note: Fiber diameter and length may vary per sight or installation application. Please check actual sight model before ordering.

REPLACEMENT BATTERIES

- Replacement lithium batteries for TRUGLO® and other brand lights and electro-optical sights

**MODEL** | **DESCRIPTION**
--- | ---
TG988B | For HUNTER'S LITE™ model TG982B (2 per pack, 3V-CR2016)
TG988C | For all TRUGLO® Dot Optics and Illuminated Scopes (2 per pack, Lithium 3V-CR2032)

PICATINNY RISER MOUNTS

- Mounts to existing Picatinny rail
- CNC-machined aluminum
- Easy to install without modification
- Ideal for mounting scopes or dot optic sights
- Great for any AR-15 flattop

**MODEL** | **STYLE** | **LENGTH** | **HEIGHT** | **MOUNTING** | **FINISH**
--- | --- | --- | --- | --- | ---
TG9870B | 1-Piece | 4" | 1/2" | Picatinny rail mount with recoil lug | Anodized matte black
TG9890B | | 3/4" |  
TG9900B | |  
TG9871B | (Fits TG8020B Red Dot) | 2" | 1" |  
TG9872B | 2-Piece | 1.36" Each | 3/4" | 1" |  

PICATINNY MOUNTING ADAPTER

- Converts 3/8" mounting bases into Picatinny or Weaver-style mounts
- Mounts to existing 3/8" rail
- CNC-machined aluminum
- Integrated adjustable recoil lug
- Easy to install without modification
- Accommodates all standard scope setups

**MODEL** | **MOUNTING** | **FINISH**
--- | --- | ---
TG9845B | Picatinny rail mount with recoil lug | Anodized matte black

Please note: Model lengths and diameters may vary per sight or installation application. Please check actual sight model before ordering.

</table>

* Measured as the height between the top of the Weaver / Picatinny rail and the center of the optic.

** Measured from top of Weaver / Picatinny rail to the top of optic (excluding turrets, buttons, etc).

**DOT**

A traditional dot is great for simplicity, familiarity and speed. Our dot reticles are available in a variety of sizes and colors. A smaller dot is generally more precise, but a larger dot is faster to acquire and align.

**CENTER DOT**

Our Center Dot reticle combines a traditional dot with a reference ring for faster acquisition. Listed size (in MOA) identifies the size of the central dot.

**CROSSHAIR**

The illuminated Crosshair reticle provides a large shape that can be found quickly, and then centered for alignment like a traditional telescopic sight.

**PEEP**

Our Peep reticle combines the Crosshair and Center Dot designs. Vertical and horizontal bars help the reticle to be found and positioned quickly, then the small central dot is used for precise aiming. Listed size (in MOA) identifies the size of the peep opening. (Negative space)
**SCOPE SPECS**

**BDC**
Bullet-Drop Compensating reticle can be easily calibrated to provide aiming points from 100 to 600 yards for centerfire loads and aiming points out to 300 yards for various muzzleloader bullet / powder combinations.

**DUPLEX**
Duplex reticle provides fast target acquisition in any lighting condition.

**CIRCLE DUPLEX**
Duplex reticle provides fast target acquisition with a simple circular frame of reference for patterning shotguns, ranging targets, or simple holdover reference.

**DIAMOND BALLISTIC**
Specially designed for the deer or turkey hunter. Diamond reticle measures 5 inches at 40 yards.
